**Changes in USDA-RD Income Levels and Interest Rate**

USDA-RD has just started a new two-tier income limit system for Utah. The income limit for a household of 1-4 is now the same and the income limit for a household of 5-8 is now the same. This will help more families qualify for the Mutual Self-Help Program that may not have qualified due to being over income for their family size. If you want to check to see if you can qualify, please contact us today. Also, the USDA-RD interest rate for September 2016 is 2.85%.

**We Are Hiring!**

SHH is currently looking to hire an Assistant Construction Supervisor and a Construction Supervisor. Go to our website for more information.

"...you'll do things you never thought you could do, you will make friends and memories, overcome fear, learn new traits and have a professional-like built home." -Nate Lloyd
Thank you for your donations and continued support of the Mutual Self-Help Program. It is greatly appreciated!
